Preventing the Introduction and Spread of Invasive Weeds Workshop - 4/9/12 Evaluation

Thank you for attending the
Preventing the Introduction and Spread of Invasive Weeds Workshop on April 9, 2012 in
Sonora/Tuolumne!

Your evaluation and feedback will assist us in developing future educational materials and programs.

* = Required

Question	Response
* As a result of attending the workshop what <u>general</u> prevention practice(s) do you plan to implement in 2012? (check all that apply)	<p>Weed identification and/or control training for staff/volunteers</p> <p>Share information with upper management regarding weed prevention techniques and programs</p> <p>Modify contract language to add BMPs (we don't currently have any)</p> <p>Modify contract language to add MORE BMPs (we have some in place already)</p> <p>I don't foresee adding any of the prevention practices to my organization's operating or contracting procedures</p> <p>I/we plan on adding prevention practices but they won't be implemented until after 2012</p> <p>My organization needs more education about the value of prevention before anything will be implemented</p>
* As a result of attending the prevention workshop what <u>weed-free aggregate</u> practice(s) do you plan to implement within your organization in 2012? (check all that apply) (copy)	<p>Begin an aggregate inspection program for materials my organization purchases</p> <p>Collaborate with other organizations to start a regional aggregate inspection program</p> <p>Modify contract language to require weed-free aggregate materials</p> <p>I don't foresee adding any of the practices to my organization's operating or contracting procedures</p> <p>I/we plan on adding practices but they won't be implemented until after 2012</p> <p>My organization needs more education about the value of weed-free aggregate use before anything will be implemented</p>
* As a result of attending the prevention workshop what <u>best management</u> practices do you plan to implement within your organization in 2012? (check all that apply)	<p>Implement 3 to 10 new BMPs into operation protocols</p> <p>Implement 10 to 25 new BMPs into operation protocols</p> <p>Implement >25 new BMPs into operation protocols</p> <p>I don't foresee adding any of the practices to my organization's operating or contracting procedures</p> <p>I/we plan on adding practices but they won't be implemented until after 2012</p> <p>My organization needs more education about the value of</p>

BMPs before anything will be implemented

Please list any specific BMPs, contract or aggregate inspection protocols that you plan to implement this year:

* Will you be working to control Yellow Starthistle in 2012 on property you own or manage? Yes No

Which control method(s) do you plan to use to treat Yellow Starthistle? (chose all that apply)

- Grazing/Livestock Management
- Tillage/Cultivation
- Mowing/Weed whacking
- Handpulling
- Herbicide Application - Transline, Star Thistle Killer, Milestone, Roundup
- Controlled Burning

If yes, how many acres of land will you be treating to control Yellow Starthistle? No Response

Please rate each of the speakers and topics regarding the usefulness and value of the information presented (scale: 1 - not very useful; 5 - very useful):

Invasive Plant Biology and Vectors of Spread (Wendy West) No Response

Aggregate/Quarry Inspection Processes (Garrett Dickman) No Response

Transportation and Utility Corridor BMP Guidelines, Checklists, CalWeedMapper (Heather DeQuincy) No Response

Yellow Starthistle Control and Leading Edge Program (Wendy West) No Response

Field Trip to George Reed Quarry No Response

What additional invasive weed or prevention information or topics would be useful to include in future workshops?

Other comments or suggestions?
