

The link below will take you to an anonymous survey (5 short questions) on prune production challenges and research priorities in California. If you are involved prune production (grower, PCA, etc.), please take a couple of minutes and fill out the survey. If you are not a grower or PCA, but involved in the industry and want to add your input, please do; just leave the grower or PCA questions blank.

Thank you for considering this request. Here is the link...
