Grapevine Short Course

May 8-9, 2019

at South Coast Winery
34843 Rancho California Road, Temecula, CA

What is the Grapevine Short Course?

Register to learn more about:

- Vineyard planning, design and development

Plan to join us for this integrated vineyard management short course featuring UC faculty, Cooperative Extension specialists and farm advisors who will provide an in-depth, comprehensive study of all phases of grapevine culture and production.

The program is based on the latest information and research and will cover the fundamental principles that form the basis for practical decisions and include Q&A for each session, quality time with instructors and networking opportunities.

Who should attend:

New and experienced growers as well as other industry members interested in commercial grape production.

- Grapevine variety and rootstock selection
- Evaluation and modification of water and soils
- Grapevine training, pruning and canopy management
- Physiology of the grapevine
- Irrigation scheduling
- Proper use and maintenance of irrigation systems
- Mineral nutrition and fertilization
- Integrated pest management of insects and diseases
- Precision viticulture
- Quality & harvest concerns
- Impact of climate change on grapevines

Register Now!

The registration fee of **\$550** includes breakfasts, lunches and coffee breaks during the course, and two days of instruction with over 20 presentations.
