

Interested in water and energy efficiency upgrades on your farm? Come to a nearby **SWEEP Workshop**:

November 7, 2019
9 am - 11 am

Cooperative Extension
Tulare County
4437 S. Laspina St.
Tulare, CA 93274

The State Water Efficiency and Enhancement Program helps California farmers improve their irrigation efficiency. It will fund projects up to **\$100,000** that increase water use efficiency and reduce greenhouse gas emissions. Eligible practices include:

- Installation of variable frequency drive
- Pump retrofit or replacement
- Soil moisture monitors
- Conversion to micro irrigation or drip irrigation

SWEEP will accept applications from interested growers from **October 21, 2019 to December 16, 2019**.
