

Tree Planting Resources for Mono County

Dustin Blakey

SELECTION

- Mono County's Plant List:
https://monocounty.ca.gov/sites/default/files/fileattachments/building_division/page/5757/plant_list_no_flowers.pdf
- Choosing the Right Plants for the Eastern Sierra's High Fire Hazard Areas:
https://www.livingwithfire.com/wp-content/uploads/2018/10/Tahoe-Plant-Guide.final_.pdf
(This link says Tahoe Basin, but it's essentially the same as the one Inyo County printed.)
- Inyo-Mono Master Gardener Website:
https://ucanr.edu/sites/newinyomonomg/Eastern_Sierra_Gardening/Yard_and_Landscape/

INSTALLATION

Factsheets

- Downer, J. (2009). Establishing landscape trees. Landscape Notes.
https://ceventura.ucanr.edu/newsletters/Volume_22_No2_-_July_200929819.pdf
- Hickman, G. & Shivra, P (2002). Planting landscape trees. UC ANR Factsheet 8046.
<https://anrcatalog.ucanr.edu/pdf/8046.pdf>
- Johnson, G. & Few, T (2020). Staking and guying Trees, U. of Minnesota
<https://extension.umn.edu/planting-and-growing-guides/staking-and-guying-trees>

Videos

- Planting Containerized Trees: <https://youtu.be/jBoyN1TOP3g> - Best way for most homeowners
- Planting Bare-Root Trees: <https://youtu.be/vJRqe9hb6Ds> - Usually means fruit trees or Arbor Day Foundation trees planted during dormant season.
- Planting Ball and Burlap Trees: <https://youtu.be/dAST33NqzJU> - These are usually large trees and can be a lot more work.

GETTING ANSWERS TO YOUR QUESTIONS

- Best: Contact the Inyo-Mono Master Gardeners at immg@ucanr.edu or 760-872-2098
- Very Good: Ask your local nurseries for advice, especially on good trees
- Good: Information you'll find for northern Nevada applies well to Antelope Valley, assuming it's correct to begin with

MORE INFORMATION IN FUTURE?

If there is a lot of demand for a topic, we can set up a workshop. Let me know or ask the Master Gardeners.
