

Take our Cover Crop Survey and be entered into our drawing to win a \$50 gift card!

Are you a grower or a crop consultant working in California agricultural systems? Do you have an opinion on cover crops one way or the other?

If you are one of the first 200 participants who complete the survey, you will be entered into a drawing to win one of ten \$50 gift cards, while helping us get a better understanding of barriers and motivations associated with cover cropping in California.

The survey will take about 12 minutes. Please be thoughtful and honest in your responses. This information will help us improve research and outreach programs at the University of California.

Don't forget to enter your contact information when prompted at the end of the survey in order to be eligible for the drawing. Any contact information will be kept confidential. You can opt out of the \$50 gift card drawing and we'll still very much appreciate your responses.

Use the QR code to link to the survey or enter bit.ly/UCCCovercrops into your search bar.
