Every year the [Golden Empire Gleaners](#) asks for the help of the community to assist in its annual food drive to help needy children and families in Kern County. As in past years, we are asking our local 4-H clubs to assist in this worthy cause.

Just bring in your cans, boxes, bottles, or bags of [nonperishable food items](#) to the County 4-H Office. We will store the contributions here until it is time for the Gleaners to pick them up. Every little bit helps to stave off hunger for needy families in our community. There is a list of items on page 13 in this newsletter.

If you have any questions, give us a call at 661-868-6200, or you can contact [Sue Mckinney](#) or [Gordon Riggs](#).

Thank you for helping feed those in need.

*Meeting is at the UC Extension Office, 1031 S. Mt. Vernon Avenue, Bakersfield, CA - Wheelchair accessible. Please contact UCCE Kern at 661-868-6200 if any special accommodations. Individuals who need to request an ADA accommodation in order to participate in 4-H sponsored events and activities can contact your local 4-H Office to complete a 4-H ADA Accommodation Request Form: <http://4h.ucanr.edu/files/153972.docx>

4-H SHOOTING SPORTS – HUNTING PROJECT/ CALIFORNIA HUNTER EDUCATION COURSE

Instructor: John Borba
Email: jbinnv@yahoo.com

This project covers the information required to take the California hunter education test and obtain your hunter safety certificate. The hunter safety certificate allows you to purchase a hunting license or hunt in other states that require proof of having passed a hunter education course. The project is open to junior, intermediate, and senior 4-H members. The five class sessions will take place at the Woody Community Hall at the intersection of Glennville Road and Woody Road. Students need to bring a writing utensil and paper to each class.

At the end of this course, each student is expected to demonstrate proper safety procedures with firearms and pass the written exam with a minimum passing score of 80% or better. Failure to pass the written exam prohibits the student from obtaining his/her hunter safety certificate, and she/he must retake the entire course. State law requires that each student attend every session. Missing one or more class sessions automatically drops the student from the course. Being tardy for class is also grounds for dropping a student.

Class size is limited to 25 students. You must register for the course online by going to this link: <https://www.register-ed.com/events/view/189771> This will be a “traditional” course so you will need to look under the registration link for traditional courses in Bakersfield.

For 4-H project leaders

Welcome to the new 4-H program year! Here are a few resources to help you think about organizing a 4-H STEM-oriented project!

- [Project Leader Checklist](#) (right)
- [Project sheets](#) (below) are a guide for 4-H project leaders to develop their projects with meaningful content. These three are examples of the dozens available!

Explorers of the Deep

Explorers of the Deep, focuses on the mysteries and adventures of ocean exploration—with robots! Young people learn how to use science, technology, engineering, and math (STEM) to explore Earth’s Ocean and how it relates to all life on the planet.

Explorers of the Deep activities can be done all at once or individually.

1. **Ocean Robot Test Tank** is an activity where youth learn how to “ballast” their ocean robot by adding weights to replicate the sinking and floating behavior of a real ocean robot. They will investigate data collected by ocean robots and learn about the value of ocean exploration.
2. **Ocean Expedition** is a board game where youth navigate their ocean robot around the world while learning key ocean concepts. Topics include aquaculture, climate change, innovation, human impact and the ocean ecosystem.
3. **Ocean Communicator** is an activity in which young people investigate challenges that ocean scientists, engineers and technologists are currently exploring. They design and advocate for innovations and technical solutions that inspire public action.

Join the 2022-2023 State 4-H VEX IQ Robotics Project!

Apply by September 15, 2022 (extended)

DESIGN, BUILD, SHOWCASE October 2022 to May 2023

Teams (at least 2 to 3 youth + 1 adult) are invited to apply to join the VEX IQ statewide 4-H robotics project 2022-2023!

Target age: Junior and intermediate 4-H members (9 to 13 years old; although fine for older youth, too)

Location: Zoom

Teams will receive a VEX IQ kit, meet monthly on Zoom, and prepare for a showcase on May 27, 2023 (using the annual VEX competition).

VEX IQ are plastic, snap-together pieces designed to build highly functional robots. The system does not require any prior knowledge in robotics. Youth can easily build their first robot, and the wide variety of additional parts means that they can build anything they imagine as they learn.

Farm Service Agency

Youth Loans

FACT SHEET

August 2019

Overview

The U.S. Department of Agriculture’s Farm Service Agency (FSA) makes operating loans of up to \$5,000 to eligible individual youths ages 10 to 20 to finance income-producing, agriculture-related projects. The project must be of modest size, educational, and initiated, developed, and carried out by youths participating in 4-H clubs, FFA, tribal youth organizations, or similar agricultural-affiliated groups.

The project must be an organized and supervised program of work. It must be planned and operated with the assistance of the organization advisor, produce sufficient income to repay the loan, and provide the youth with practical business and educational experience in agriculture-related skills.

Who May Borrow

To qualify for a loan, the applicant must:

- Comply with FSA’s general eligibility requirements; and
- Conduct a modest income-producing project in a supervised program of work.

How Loan Funds May Be Used

These loans can finance many kinds of income-producing agricultural projects. The loan funds may be used to:

- Buy livestock, seed, equipment, and supplies;
- Buy, rent, or repair needed tools and equipment; and
- Pay operating expenses for the project.

How It Works

To apply, the applicant must submit completed plans and budgets signed by the project advisor and parent or guardian along with the FSA application for loan assistance.

These loans:

- Have a maximum loan amount of \$5,000 (total principal balance owed at any one time cannot exceed this amount);
- Have an interest rate that is determined based on the cost of money to the federal government (after the loan is made, the interest rate for that loan will not change);
- Will be secured, in addition to promissory notes, by liens on the products produced for sale and on chattel property, including livestock, equipment, and fixtures purchased with loan funds; and
- Have a repayment schedule that varies depending on the type of project for which the loan is made. For example, if it involves raising livestock or crops, the loan is paid when the animals or produce are normally sold.

Food Safety Training Available ONLINE!

The service of safe food should be a priority for all University of California (UC) events. Any activity where food is served (potlucks, luncheon meetings, etc.) has the risk for food borne illness. If a 4-H YDP group plans to serve food as part of an official 4-H YDP activity, the food preparation and service must be in compliance with all local (city and county) health department rules and state laws. In addition, it is imperative that all county based rules and regulations governing food service activities be observed, including securing appropriate permits. Food Safety trainings are available anytime online! Please visit the website below, and use the provided sign-in/user information:
