

UC Seeks Feedback on Wildfire Impacts

I know you've been affected by wildfires, and I am hoping you can take less than 20 minutes to share with me the impacts you experienced and response strategies you implemented.

I know you are always bombarded with surveys, but I promise this one holds tremendous value! The results of this survey will elevate farmers and rancher perspectives to the forefront of local and regional wildfire preparedness & response efforts. We also envision the results from this survey informing the next Farm Bill that Congress is currently discussing and statewide wildfire response efforts.

[Take the survey: https://bit.ly/FiresAgStudy1](https://bit.ly/FiresAgStudy1)

We're grateful for your time. All participants who finish the survey by May 15th will receive a \$20 thank-you gift and will have the option of being entered into a drawing for \$200 (eight people will be chosen).

Feel free to reach out with any questions,

Natalia Pinzón | Research Specialist and Ph.D. Candidate, UC Davis

Tracy Schohr | Plumas-Sierra Advisor, UC Cooperative Extension
