

Specialty Crops Advisor

Ellie Andrews

Sonoma, Marin, and Napa Counties

University of California Cooperative Extension

Email: eandrews@ucanr.edu

Role & Services

- Science-based ag support for commercial specialty crop growers
- Free farm calls & agronomic advising
- Educational outreach & applied research driven by local priorities
- Crop types: orchards, berries, vegetables, cut flowers, culinary herbs & mushrooms, etc. (not grapes)
- Topic areas: plant health, soil, water, integrated pest management, scale-appropriate equipment, crop diversification, ecological & climate adaptive practices, field trial design

What is UC Cooperative Extension?

- Reciprocal collaboration between advisors & growers
- We provide science-based strategies & solutions
- Local communities help us understand key issues to address through applied research & outreach
