

## AGAVE INFORMATION

Based on information in Greg Starr's fantastic book *Agaves*, here is a list of the agaves most tolerant to wetter conditions:

- *Agave bovicornuta*
- *Agave geminiflora*
- *Agave gentryi*
- *Agave horrida*
- *Agave isthmensis*
- *Agave mitis*
- *Agave montana*
- *Agave petrophila*
- *Agave schidigera*
- *Agave wocomahi*

and a list of the agaves most tolerant to drier conditions:

- *Agave applanata*
- *Agave asperrima*
- *Agave colorata*
- *Agave pelona*
- *Agave striata*
- *Agave toumeyana*
- *Agave utahensis*
- *Agave victoriae-reginae*
- *Agave xylonacantha*
- *Agave zebra*

Soil Amendment Ingredients:

- 1/6th locally mined "fines", ¼ inch minus screened (fine particles)
- 1/6th locally mined "fines", ½ inch plus screened (larger particles)
- 1/3rd horticultural pumice
- 1/3rd compost
