

Starting tonight is our 2024 cattle health webinar series. We have a great line up of speakers every Tuesday night this month for cattle producers of all sizes! Below are details to share with your clientele.

UC Cooperative Extension and UC Davis Veterinary Medicine are excited to offer our 3rd Cattle Health Online Webinar Series. The webinars will be held on Tuesday evenings in February from 5:30-7:00 pm and are for producers of all sizes. The sessions cover topics important to cattle health and management and include lots of visuals.

Webinars are held live and participants have the opportunity to ask clarification questions on topics presented or with personal ranch questions or scenarios.

The event is FREE to participate but registration is required. [To REGISTER click here.](#)
