

UC Master Gardeners of Santa Barbara County, in  
Partnership with the Santa Maria Public Library Present:

## A FREE, In-Person Presentation on “Monarchs and Milkweed”

The UC Master Gardeners of Santa Barbara County, in partnership with the Santa Maria Public Library, invite you to join us for a free, in-person presentation on Saturday, March 3, 2024, 2:00 to 4:00 pm at the main library located at 421 South McClelland Street, Santa Maria. UC Master Gardeners Steven Craig and Marivel Zambrano-Esparza will present a research-based presentation on “Monarchs and Milkweed”.

Once there were millions of monarch butterflies, but climate change, lack of nectar plants and Milkweed, and other causes have resulted in monarch populations declining over the past decade. Steven and Marivel will discuss the challenges facing the Monarch, the role of nectar plants and Milkweed, and what you can do at home to help support the Monarch.

We hope you will join us for this important talk.

Attendance is limited to 30 people. Please register on the SM Library website to reserve your spot: [SM Library Registration](#)
