Water Measurement and Reporting Course

Senate Bill 88 requires that all water right holders who have previously diverted or intend to divert more than 10 acre-feet per year (riparian and pre-1914 claims), or are authorized to divert more than 10 acre-feet per year under a permit, license, or registration, to measure and report the water they divert. Detailed information on the regulatory requirements for measurement and reporting is available on the State Water Resources Control Board [Reporting and Measurement Regulation](#) webpage.

The legislation as written requires for diversion (or storage) greater than or equal to 100 acre feet annually that ***installation and certification*** of measurement methods be approved by an ***Engineer/Contractor/Professional***. Diverters across California were concerned about this requirement. California Cattlemen's Association heard from their membership and worked with Assemblyman Bigelow on a bill that would result in a self-certification option. Assembly Bill 589 was passed and became law on January 1, 2018.

This legislation, allows **any diverter**, as defined, *who has completed this instructional course on measurement devices and methods administered by the University of California Cooperative Extension*, including passage of a proficiency test to be considered a qualified individual when installing and maintaining devices or implementing methods of measurement. **The bill requires the University of California Cooperative Extension and the board to jointly develop the curriculum for the course and the proficiency test.**

At the workshop you will :

- Clarify reporting requirements for ranches.
- Understand what meters are appropriate for different situations.
- Learn how to determine measurement equipment accuracy.
- Develop an understanding of measurement weirs.
- Learn how to calculate and report volume from flow data.

These trainings will move fast and will include a proficiency test. Bring a clipboard and a hand calculator. We encourage family/staff member's attendance.

Registration is required. There is a fee of \$30

DATE: Friday, March 15, 2024

TIME: 9:00 a.m.-12:30 pm

LOCATION: Walnut Room
1834 Walnut Street
Red Bluff, CA

Refreshments sponsored by Shasta Land Service.
