

Community Outreach & Fundraiser

Aside from providing physical activity, gardens contribute to our overall personal wellness. This calendar explores some of the non-physical benefits of gardening that many of us tend to overlook.

This 12-month calendar is appropriate for gardeners of all levels and styles. Gardening practices encouraged within the calendar are those recommended by the California Master Gardener Program.

This calendar is suitable for climate zones from California's Central Valley to the foothills. For other climate zones, modify the tips as needed to adapt to your area's growing conditions.
